Data Verification Consultant

Short-term (1 month)

Terms of Reference

Background

The Global Fund is supporting an integrated comprehensive TB/HIV prevention, care and treatment as well as a Resilient Sustainable Systems for Health (HIV/TB/RSSH) grant in Lagos from January 2019 to December 2020. The Directorate of Healthcare Planning Research and Statistics (DHCPRS), Lagos State Ministry of Health is leading implementation of the RSSH grant with technical support from PharmAccess Foundation.

The PharmAccess Foundation is dedicated to improving access to better health care for people in sub-Saharan Africa. It mobilizes public and private resources for the benefit of doctors and patients through health insurance, mHealth innovations, loans to doctors, clinical standards and impact research. Working in public-private partnerships, we leverage donor contributions to increase trust in the health system, reduce risks and transaction costs, paving the way for private investments. We work with State governments to design and develop their health insurance schemes and providing necessary technical support to operationalize and scale up the health insurance schemes.

Purpose of This Technical Assistance

PharmAccess Foundation is looking to recruit a data verification consultant to support the reassessment and verification of stand-alone and hospital laboratories captured during the Service Availability Mapping in Lagos State.

The Position

A data verification consultant is needed to provide technical support during the assessment of laboratory service providers in Lagos State. The consultant will be responsible for visiting data collection sites to recapture coordinates and other information for verification purposes and also supervise data collectors throughout the fieldwork.

Scope of Work

- Verify previously captured sites by the data collectors
- Provide technical support to data collectors
- Review data entries on the storage server for data quality issues
- Provide daily update to the data collectors on the sites captured accurately

Required Skills/ Experience

- A B.Sc. in Microbiology or Medical Laboratory Science or related discipline
- Minimum of 2 years of relevant experience in project management and supervision discharging similar duties with minimal supervision
- Experience in the public sector and international development would be an asset.
- Excellent communication skills in English (written and verbal).

Estimated Schedule

The technical support will run from August to September 2020 or as may be determined

Management Reporting

The consultant will report directly to the SafeCare Director.

How to Apply

To apply for the position, please submit the following documents:

1. A one-page cover letter describing why you are interested in the consultancy position
2. Your detailed CV.

All interested applicants should send their cover letter and curriculum vitae by email to vacancies@pharmaccess-ng.org with the subject 'TGF-DVC-SAM LAGOS'. The submission deadline is Friday, September 4, 2020.
